At Camp "Yokowish."
Members of the Quota Club and a number of their friends were delightfully entertained last evening by Mr. and Mrs. Bruce Farnus at "Yokowish" their summer camp on the Valley River. The Quotarians and their friends, numbering approximately fifty, spent the up-river camp in the La. B. Emily and in automobiles and spent a most delightful evening. Immediately upon their arrival at the camp, bathing suits were donned and a number of water sports formed the principal diversion of the evening. While the bathers were enjoying the river, Mrs. Farnus and several assistants including Mrs. C. E. Reed, arranged a long table on the enclosed porch where the guests were bountifully served with all the delicacies of the season, including fried chicken in abundance, green beans, corn on the cob, buttered beets, tomatoes, cucumbers, lettuce, hot rolls, jellies, brick ice cream, cake and coffee. The guests were all seated about the one table, and the menu was splendidly served. After the banquet the guests adjourned to the large verandah where dancing was indulged in for several hours. The verandah and trees about the camp were hung with Japanese lanterns, and these with large bowls of golden rod in purple crepe paper cases, made a wonderfully beautiful effect. Swings and comfortable chairs provided comfort for those who did not care to dance, and large boxes of "kisses" were frequently, were enjoyed by the guests. The party broke up at about 10:30, and the guests all returned to this city, after having spent one of the most delightful evenings in the history of the Quota Club. The guests were loud in their praise of Mr. and Mrs. Farnus and the entertainment committee of the club for the delightful affair. The first outing enjoyed by the Quota Club was staged at the Farnus camp last summer and so delightful did it prove to be, that an invitation was extended at that time for a visit there this year.

Author Risks Life to Wrest Aged Secrets From Desert

By MILTON BRONNER

LONDON, July 17. (Wireless.)—A man who has risked his life in the desert to unearth the secrets of the past, has just returned with a story that will make the world gasp. He has found the broad military road Alexander the Great used when he led his Macedonian troops into India.

He has discovered the footpath used by Chinese pilgrims in quest of the holy places of India connected with the life of Buddha.

But most romantic of all, he has found a buried Chinese wall 140 miles long, on the Chinese frontier in the first days of the Christian era.

Here were the watch towers where homesick Chinese soldiers kept guard; ward rooms in which they sat, remnants of their letters.

Even more wonderful, he found the "Caves of the Thousand Buddhas." Here were the earliest woodcuts in the world and the oldest specimens of printing. The books and the paintings there found will keep scientific men busy for years to come. An entire new chapter has been added to man's knowledge.

Today Stein is out in the sands, trying to dig out more of their riddles.

After serving at the head of the Lahore College in India and with other educational and governmental institutions, Sir Aurel Stein determined to read the riddle of the great stretch of desert from the Indus, north of India, to the Pacific coast watershed.

Sir Aurel has dug, under and brought to light the relics of vanished civilizations in almost perfect freshness. He has obtained the manuscripts of two Indo-European languages new to scholars.

He has revealed the secrets of the places where Greek, Indian and Chinese civilizations met.
